Aaron,

No problem on the time, we've been a little preoccupied ourselves with the pseudoephedrine bill.

Yes, we would like a preliminary draft to take a look at. As you described it, it does sound like what we want. We will take a look at it and get back to you.

Thanks  
Matt

Matt,

Sorry it has taken me a while to get to this ... it's been very busy here. This draft is basically finished. I did want to note that, under current law, a grocer or gift shop can obtain a "Class A" license to make these off-premises sales. As I have drafted this bill, there is no advantage to having the new "Class D" license over having an existing "Class A" license, except that I have made the fee slightly lower (consistent with the current "Class C" license rather than "Class A" license). Other than the fee, the only difference is that "Class A" licensees can sell more products (including wine), whereas "Class D" licensees can only sell wine. Was there any other difference that you wanted incorporated into the bill? Do you want to see a preliminary draft and then talk to your constituents about it, or do you want me to hold off on sending this out until you confer with your constituents?

Thanks. Aaron

Hi Aaron,

I spoke with Roger Johnson, I think we need to go with a "Class D" license as you originally suggested.

Thanks

The major difference is that a permit is issued by the Department of Revenue (DOR); a license is issued by the municipality. I think that what each authorizes is basically the same. But the real authority on this is Roger B Johnson

at DOR. I'm sure he could tell you if, for example, there are any significant limitations on the holder of a "Class B" permit in comparison to the holder of a "Class B" license. Aaron

Hi Aaron,

Thanks for the response. Could you explain the difference to me between a permit and a license? Perhaps a permit would be the best option, particularly since many municipalities are hesitant to issue additional licenses.

Matt,

I will be the drafter on this. It will probably need to be a "Class D" license, if that is okay with you. Another option would be to make it a "Class C" permit ( not license) issued by DOR rather than a local authority. I will go ahead and draft as a "Class D" license unless I hear otherwise from you. Please call if you have any questions.

**Subject:** Liquor license legislation

Hi Chris,

We are looking to get a bill drafted to provide for a new category of liquor licenses, specifically one that would allow retailers to sell wine only for consumption off-premises. We have been contacted by grocers and gift shops who only want to sell bottles of wine off-sale, but are confined by current liquor license laws and the number of licenses available in their municipality. Could you take a look at this and draft something to this end? I'm not sure what the best way to classify the license, whether as a new Class "C" license would be best or a whole new category.

Please let me know if you see any problems with this or have any questions.

Thanks

## PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

Gen

D-note

- 1 AN ACT ...; relating to: creating a new license issued by municipalities  
2 authorizing the retail sale of wine in unopened original containers for  
3 consumption off the premises where sold.

---

***Analysis by the Legislative Reference Bureau***

Under current law, alcohol beverages are generally distributed to consumers under a three-tier distribution system: a manufacturer may sell only to a wholesaler or rectifier (a person who blends, refines, or purifies distilled spirits or wines); a wholesaler or rectifier may sell only to a wholesaler or retailer; and a retailer may sell only to a consumer. With specific exceptions, no person may sell outside the three-tier system and no person may sell alcohol beverages to a consumer unless the seller possesses a license or permit authorizing the sale. A "Class A" license authorizes the retail sale of intoxicating liquor, including wine, for consumption off the licensed premises. A "Class B" license authorizes the retail sale of intoxicating liquor for consumption on or off the licensed premises, which authorization is subject to certain limitations, some of which depend on whether the issuing municipality has adopted an ordinance related to "Class B" licenses. A "Class C" license authorizes the retail sale of wine by the glass or in an opened original container for consumption on the licensed premises and may only be issued for a restaurant. Each of these licenses is issued by a municipality.

This bill creates a "Class D" license authorizing the retail sale of wine in unopened original bottles or other unopened original containers for consumption off the licensed premises. The license is issued by municipalities and the annual fee for the license is determined by each issuing municipality, but may not exceed \$100. The

restrictions and requirements governing “Class A” licenses under current law also apply to “Class D” licenses.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

Please review the attached draft carefully to ensure that it is consistent with your intent. As discussed, the attached draft creates a "Class D" license authorizing the off-premises sale of wine. This license is similar to the "Class A" license under existing law except that it has a lower fee (the same fee as for a "Class C" license) and the types of intoxicating liquor authorized to be sold under the license are more restrictive (wine only).

Please let me know if you would like any changes made to the attached draft or if you have any questions. If the attached draft meets with your approval, let me know and I will convert it to an introducible "/1" draft.

6 4m. and 125.51 (3s) of the statutes; **relating to:** creating a new license issued  
7 by municipalities authorizing the retail sale of wine in unopened original  
8 containers for consumption off the premises where sold.

***Analysis by the Legislative Reference Bureau***

Under current law, alcohol beverages are generally distributed to consumers under a three-tier distribution system: a manufacturer may sell only to a wholesaler or rectifier (a person who blends, refines, or purifies distilled spirits or wines); a wholesaler or rectifier may sell only to a wholesaler or retailer; and a retailer may sell only to a consumer. With specific exceptions, no person may sell outside the three-tier system and no person may sell alcohol beverages to a consumer unless the seller possesses a license or permit authorizing the sale. A "Class A" license authorizes the retail sale of intoxicating liquor, including wine, for consumption off the licensed premises. A "Class B" license authorizes the retail sale of intoxicating

liquor for consumption on or off the licensed premises, which authorization is subject to certain limitations, some of which depend on whether the issuing municipality has adopted an ordinance related to “Class B” licenses. A “Class C” license authorizes the retail sale of wine by the glass or in an opened original container for consumption on the licensed premises and may only be issued for a restaurant. Each of these licenses is issued by a municipality.

This bill creates a “Class D” license authorizing the retail sale of wine in unopened original bottles or other unopened original containers for consumption off the licensed premises. The license is issued by municipalities and the annual fee for the license is determined by each issuing municipality, but may not exceed \$100. The restrictions and requirements governing “Class A” licenses under current law also apply to “Class D” licenses.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
